EDUCATION

Nankai University

Tianjin, China

Master of Science (MSc) in pure Mathematics

Sep 2024 – Jun 2027 (Expected)

- Research Interests: Nonlinear System, Chaos Theory and Fractal Geometry
- Projects: Focus on Complex Dynamical Systems, authored 2 papers (currently under review)

Shanghai University of Finance and Economics

Shanghai, China

Bachelor of Economics (BEc) in Finance

Sep 2020 – Jun 2024

- Research Interests: Quantitative Finance; Thesis: Time Series Analysis based on Long-Memory Indicators
- Honors: Selected for the Experimental program (top 20 among 450+); Exempted from National Entrance Exam (awarded to top-tier students)
- Coursework: GPA 3.35/4.00 (top 30%); Completed a rigorous curriculum including 20+ Finance, 10+ Mathematics, and 4 Computer Science courses

University of California, Berkeley

CA, United States

Berkeley Global Access (BGA) program

Jan 2023 – Jun 2023

- Coursework: GPA 4.0 / 4.0, including Abstract Algebra and Complex Analysis

AWARDS AND HONORS

15th National Undergraduate Mathematics Competition (math category)

Second Prize, Shanghai

Dec 2023

2022 S&P Global Market Intelligence Valuation Challenge

Top 10, Nationwide

Dec 2022

13th National Undergraduate Mathematics Competition (non-math category)

First Prize, Shanghai

Dec 2021

National Undergraduate Mathematical Modeling Contest

Second Prize (Team Leader), Shanghai

Dec 2021

PROFESSIONAL EXPERIENCE

Research on Complex Dynamical Systems

Sep 2023 – Present

- Improved a generating algorithm for parameter set visualization; provided rigorous proofs for the accuracy.
- Leveraged innovative insights to develop methodologies for several unresolved mathematical problems.

National Innovation and Entrepreneurship Training Program

Jan 2022 – Dec 2022

- Developed a three-party evolutionary game model; independently executed programming and numerical simulations to derive equilibrium results and strategy patterns.
- The result was adopted by the Shanghai Engineering Research Center of Finance Intelligence.

Guotai Junan Futures Co., Ltd.

Dec 2021 – Feb 2022

- Developed automated web scrapers to aggregate private equity fund data; developed customized programs to structure and visualize datasets for clear reporting.

MISCELLANEOUS

Languages: Mandarin (Native), English (IELTS 7.5), Shanghai Dialect (conversational)

Programming: Python (numpy, pandas, sklearn), C / C++, MATLAB / Mathematica
